

Youssef Soula

☎ +216 28 062 241 ✉ youssef.soula@supcom.tn 🐙 github.com/Leb0wsKy 🔗 linkedin.com/in/youssef-soula

AI & Telecommunications Engineering student passionate about building intelligent systems at the intersection of deep learning, embedded hardware, and real-world impact.

Education

Higher School of Communications of Tunis — Sup'Com

Engineering Cycle — Telecommunications

Selected for an Engineering Double Degree with Télécom SudParis

Ariana, Tunisia

Sep 2024 – Present

Preparatory Institute for Engineering Studies of Tunis

Mathematics & Physics — Ranked 50th / 1,410 nationally

Tunis, Tunisia

Sep 2022 – Jun 2024

Experience

Next Consult — First Year Internship

Tunis, Tunisia | Jun–Jul 2025

- Automated data extraction from pharmacy websites using web scraping; built an ETL pipeline to collect, transform, and store pharmacy and medicine data.

Projects

PowerPulse — Smart Energy Monitoring & Production Platform · 4th / 43

TSYP 13 · Dec 2025

- Unified platform for energy consumption and PV production monitoring, combining NILM-based disaggregation with LSTM, TCN, and ATCN forecasting models.
- Anomaly detection on solar panels using ensemble methods (XGBoost, LightGBM, Random Forest).

FreeGo — Smart Post-Harvest Storage Unit · 2nd / 43

TSYP 13 · Dec 2025

- IoT cooling unit with dual-fan ventilation, temperature/humidity sensors, and a Raspberry Pi 4 streaming live data to a mobile app.
- On-device Computer Vision model identifies vegetable type and freshness, then auto-adjusts fan conditions to optimal values.

GoldenRetriever — Live Train Network Conflict Resolver · 7th / 140

Vectors in Orbit · Jan 2026

- Real-time train network monitor using TransitLine API; binary classification model flags conflict states, then retrieves the most similar historical resolution from a Qdrant vector database.

Falleha — Intelligent Agricultural Assistant

WIEACT 4.0 · Oct 2025

- Drone with Raspberry Pi + PiCamera monitoring crop quality via YOLOv5 and a Vision-Language Model; paired with a Dynamic RAG chatbot for women farmers.

Tunisian Stock Predictor

Personal Project · Aug 2025

- Interactive dashboard for Tunisian equities with an LSTM deep learning model for trend forecasting.

Competitions Won

Orange AI Hackathon — 2nd

Platform to evaluate radio network cells via KPIs (throughput, avg users...) and preview corrective actions through Digital Twin simulation.

SOS Hackathon — 2nd

SaaS for the SOS Children's Villages Tunisia ecosystem with role-based interfaces, automated reporting & signature workflows, and ticket-tracking across hierarchy levels.

Sup'Com Challenge d'Entreprendre — 3rd

Cobalt — cybersecurity consultancy for Tunisian SMEs offering pentesting packages, real-time monitoring subscriptions, intrusion detection, and employee security training.

Certifications

- **Microsoft:** Power BI Data Analyst Associate
- **Nvidia:** Fundamentals of Deep Learning
- **Nvidia:** Enhanced Data Science Outcomes with Efficient Workflows
- **Nvidia:** Getting Started with AI on Jetson Nano
- Machine Learning Techniques in **MATLAB**
- Deep Learning Techniques in **MATLAB** for Image Applications
- **Nvidia:** Introduction to Transformer-Based NLP
- **PEEC:** National Student Entrepreneur Status

Skills

Programming: Python, SQL, C++, HTML/CSS/JS
ML/DL: PyTorch, TensorFlow, LSTM, YOLO, RAG
Tools: Git, Raspberry Pi, ESP32, Qdrant, Power BI
Languages: Arabic (native), French (B2), English (C1 · 980/990 at TOEIC Exam), German

Associations

IEEE Sup'Com Student Branch — <i>President</i>	Jun 2025 – Present
Enactus IPEIT — <i>President</i>	Feb 2023 – Feb 2024
Space Club LPBT — <i>Member</i>	2020 – 2021
